Xometry, Inc.

One of the top companies offering machining services is Xometry, Inc. With its ISO 9001:2015, ISO 13485, ITAR registration, and AS9100D certified quality management system, and options to add inspections, material certifications, hardware traceability, and certificates of conformity (CoCs), the firm assures the quality of each machined item.

Millat Industries Corporation

The aerospace and automotive sectors can use the precision machining services provided by Millat Industries Corporation. They produce prototypes and specialized tools as well.

Incoils Electronics

Precision machining services are offered by Incoils Electronics. They can machine items with a diameter ranging from 2 mm to 20 mm. Lean manufacturing, turnkey assembly, production, and quick prototyping are among their competencies. It is possible to create tiny, microscopic, and micro-sized machined components.

GLT, Inc.

GLT, Inc. offers services such as CNC horizontal milling, CNC vertical milling, lathe work, horizontal sawing, fabrication, and welding for aluminum casting, as well as horizontal, precision, production, prototype, and vertical machining. They also offer containment, distribution, and packaging services.

JBK Manufacturing & Development Co.

The job shop services provided by JBK Manufacturing & Development Co. include welding, brazing, tube bending, CNC machining, milling, fabrication, and turning. Stainless steel, aluminum, steel alloy, cobalt alloy, nylon, titanium, and composites are among the materials they deal with. Additionally provided are testing and engineering services.

Paradigm Industrial

A machine shop that specializes in fabrication services is called Paradigm Industrial. They offer metal welding services in addition to CNC machining, milling, turning, surface, and center-hole grinding.

F & G Tool & Die Co., Inc.

Custom tool and die manufacturing are offered by F & G Tool & Die Co., Inc. Other machining choices include wire/conventional EDM, surface/visual grinding, conventional/continuous route CNC jig grinding, and CNC lathes.

T&R Welding Systems

Custom precision fabrication, manufacturing, and repair welding services are offered by T&R Welding Systems. They provide services for big bore milling, 5-axis machining, horizontal machining, FCAW welding, MIG (GMAW) welding, and TIG (GTAW) welding. Painting, powder coating, burning, inspecting, testing, grinding, drilling, and pressing are some of their further services.

Brinkman Tool & Die

Brinkman Tool & Die produces components, molds, dies, fixtures, and gages on a bespoke basis. Machine work, lathe work, EDM machining, CNC horizontal milling, stamping, and inspection are among their competences.

Ohio Metal Products

Services for general contract CNC machining are provided by Ohio Metal Products. Precision screw machining, CNC vertical milling, CNC drilling and tapping, CNC turning, centerless grinding, high-speed broaching, vibratory deburring, welding, heat treating, and plating are just a few of their specialties.

Midwest Tool & Engineering Company

Services for large-scale CNC machining are offered by Midwest Tool & Engineering Company. They can manage pieces up to 120 inches. Services are provided to the automobile, aircraft, locomotive, building, and appliance sectors.
