

Top Machine Shops in Phoenix, AZ

: 11/8/2022

Table of Contents

Top Machine Shops in Phoenix, AZ – Phoenix, Arizona, the fifth-largest city in America, had a significant boom in manufacturing following World War II as businesses looked to take advantage of a plentiful labor population. The invention of air conditioning also made this desert metropolis, where the sun shines for the majority of the day, more livable. Phoenix is home to a number of significant firms, including Motorola, Intel, and McDonnell Douglas. The aerospace, semiconductor, and other high-tech sectors are consequently largely reliant on machining services in the Phoenix area. Even though CNC machining is more common, many firms provide manual turning and milling when necessary. Many shops also provide further related services such as EDM, fabrication and assembly, heat treatment, engineering, prototyping, and associated manufacturing services.

We would be delighted to provide you with more information on how we can help you generate revenue within your industry. Don't hesitate to contact us if you have any questions! With **Linquip's Solutions for Each Company Level**, you will be able to upgrade the capabilities of your organization in order to gain a competitive edge by taking advantage of a wide range of options to enhance your organization's performance. If you are looking for the simplest or the most sophisticated marketing and advertising

package for your business, we can help you ensure that your company gets as many customers as possible to grow your business.

Listed below are the Top Machine Shops in Phoenix, AZ. Each company's information includes its headquarters, sales, year of foundation, and the number of employees. US million dollars are used to measure annual sales. Following the table are summaries of each company.

Company name	Year founded	No. of Employees	Annual sale	Activity
Xometry, Inc.	2013	500-1000	+\$200 Mil	Machining/ molding/ stamping
Wire-Tech	1983	500-1000	+\$250 Mil	CNC machining
Modern Industries	1969	500-1000	+\$250 Mil	CNC machining
Tru-Stop	1999	50-100	\$10-25 Mil	CNC/pressure vessels
Micro-Tronics	1968	100-200	\$10-25 Mil	CNC/rubber molding
Precise Metal Products	1957	200-500	\$10-25 Mil	CNC machining
Pivot Manufacturing	2000	10-50	\$5-10 Mil	CNC machining
Dynamic Machine	1967	10-50	\$5-10 Mil	CNC machining
Cling's Aerospace	1972	10-50	\$1 Mil	CNC/weldments
Infinisys Mfg	2007	1-10	\$1 Mil	CNC machining

Xometry, Inc.

Among many other services, Xometry, Inc. is a top supplier of machining, molding, and stamping. The business produces customized metal stampings in a range of materials, including copper, stainless steel, brass, and steel alloys. It offers production quantities of up to one million pieces and maintains strict tolerances, all with reasonable lead times.

Wire-Tech

From aerospace to injection molding, Wire-Tech provides 3, 4, and 5-axis CNC milling and turning services. The business also offers related services, including EDM, hole popping, surface/form grinding, honing, laser branding, and others.

Modern Industries

Four machining facilities are run by Modern Industries in the Phoenix region. The business offers certified welding, coating and passivation, and assembly services in addition to a comprehensive variety of CNC machining services.

Tru-Stop

From prototypes to small and large-scale production runs, Tru-Stop offers services for horizontal and vertical CNC machining. The business manufactures heat exchangers, ASME-compliant vessels, and related process machinery.

Micro-Tronics

In addition to providing EDM, assembly, rubber molding, and associated services, Micro-Tronics also provides 3, 4, and 5-axis CNC milling and CNC turning. The business was founded in 1968 and has been making EDM ever since.

Precise Metal Products

For the aerospace, power generation, and military industries, Precise Metal Products offers manual and CNC machining services. Capabilities include turning up to 23 in. dia. by 18 in. long and milling up to 32x25x18 in. Since 1957, the firm has been in operation.

Pivot Manufacturing

Pivot Manufacturing is a contract machining and assembly business with the semiconductor, aerospace, and defense sectors as its primary clients. The business has received Hubzone manufacturing certification.

Dynamic Machine

In Phoenix, Dynamic Machine runs a 36,000 square foot CNC fabrication and machining plant. Additionally, the business provides precision grinding, EDM, large-part manual machining, and other associated services. The business got going in 1967.

Cling's Aerospace

For the aerospace and military industries, Cling's Aerospace specializes in 4- and 5-axis complicated machined components. The business, which started operations in 1972, also provides fabricated tubes, weldments, and assemblies.

Infinisys Mfg

From the manufacture of medical components to the aerospace industry, Infinisys Manufacturing offers CNC machining services. The business has a comprehensive quality assurance procedure in place, and produced items are checked using CMMs, optical comparators, etc.

Matrix Machine

The aerospace, medical, optical, and other high-tech sectors are served by Matrix Machine's CNC milling, turning, and contract manufacturing services. The business also provides mechanical assembly and DFM support to cut down on part numbers and boost manufacturability.
